Experience

UX Designer Mentee | Humdinger

AUG 2021 - NOV 2021, MN

Design a smart security camera mobile app. Conducted research to determine target audience and product features. Designed wireframes and tailored branding to align with user needs. Lastly, worked on high-fidelity mockups and prototypes. Delivered a comprehensive presentation.

UX Designer | Forever Ware

JAN 2021 - MAY 2021, MN

Improved clients' engagement with Forever Ware by designing a dashboard system and personalizing the onboarding process. Created wireframes and rapid prototyping of the vendor app to run user tests. Iterated designs based on business requirements and user feedback.

Supply Chain Analyst | Andersen Windows

JUN 2021 - PRESENT, MN

Plan truck loads for last mile delivery from consolidation center to distribution center. Provide resolution when faced with carrier issues by analyzing data.

Projects

Mobile App UX UI Design | Ralpa

NOV 2020 - DEC 2020, MN

Designed an innovative app to help practice verbal conversations with the use of a speaking AI. Created a business model canvas to determine product market fit. Designed high-fidelity prototypes based on user flow.

Homepage redesign | International Student and Scholar Services (ISSS)

SEP 2020 - OCT 2020, MN

Improved the information architecture of the homepage to enhance international students' experience. Conducted user interviews by setting up different scenarios. Built and prototyped wireframes based on those findings.

Education

University of Minnesota | BS in Industrial and Systems Engineering

SEP 2017 - MAY 2021, TWIN CITIES

GPA 3.68
